

PVC-U Drainage Pipe

COMPANY PROFILE

Henan Exlon Pipe Industry was established in 2005, located in Zhengzhou City, Henan Province. Henan Exlon's products and services cover plumbing products, fire-fighting equipment, environmental protection, home furnishing and building material one-stop services, etc. We dedicated to manufacturing and providing complete plumbing solutions for construction, mining, chemical, agriculture, farming and aqua-culturing industries.

Henan Exlon Pipe is mainly engaged in plastic pipe products and complete system application. The main products include: PE Water Supply Pipe, HDPE Drain Pipe, PP-R Cold and Hot Water Pipe, PVC-U Drain Pipe, PE-RT Surface Radiant Heating Pipe, PE-RT Oxygen Resistance Pipe, Butt Welding Aluminum-plastic Composite Pipe, Lap Welding Aluminum-plastic Composite pipe, PSP Steel-plastic Composite Pressure Pipe, Steel Wire Frame Reinforced PE Water Supply pipe, PE Gas Pipe, PE Double-wall Corrugated Pipe, PE Hollow Wall Winding Pipe, PVC Fire-retardant Insulated Electrical Bushing, PVC-M Water Supply Pipe, PB Ground Radiant Heating Pipe PB Oxygen Barrier, etc. They are widely used in the fields of building hot and cold water, building drainage, ground radiant heating, radiator heating, central air-conditioning, ground-source heat pump, municipal water supply, municipal drainage, gas pipe network and other pipeline systems. Among them, the production and sales volume of leading products of PE water supply pipes and HDPE drainage pipes rank among the highest in the industry.

Our certificates include but are not limited to the following:
CE, ISO4427, ISO9001, SGS, CNAS, ECM, etc.

Adhering to the core values of integrity and the corporate tenet of striving for realistic innovation and serving the society, Henan Exlon is committed to becoming a world-class material provider and targeting at the middle and high-end market to provide healthy green quality life for the majority of users.

**"REALISTIC AND
INNOVATIVE,
SERVING THE
SOCIETY"**

PVC-U Drainage Pipe

PVC-U drainage pipe is a kind of building material which is widely used in kitchen, balcony, garden and toilet...etc. PVC-U drainage pipe is made of health grade PVC resin as the main raw material, adding a proper amount of stabilizer, lubricant, filler, color additive, etc. to be extruded by plastic extruder and injection molded by injection molding machine.

APPLICATIONS

- Solid and waste discharge pipelines (low and high temperature) inside buildings
- Rainwater pipelines insidethebuilding
- Buried drainage pipelines without pressure on the ground

ADVANTAGES

- High Flow Capacity

ADVANTAGES

- The smooth interior walls and low friction of PVC-U drainage pipe result in low flow resistance and high volume.

COROSSION RESISTANCE

- PVC-U drainage pipe is non-conductors of electricity and unaffected by electrochemical reactions caused by acids, bases, and salts that cause corrosion in metals.

LOW INSTALLATION COSTS

- PVC-U drainage pipe is lightweight and is installed with solvent cement and gasketed joint. Ease of installation reduces the installation costs

LONG SERVICE LIFE

- PVC-U drainage pipe can work for more than 50 years under proper use.

ENVIRONMENTAL-FRIENDLY

- PVC-U drainage pipe can be recycled.

Plain End Pipe
